

# CML Environmental Testing

Commonwealth Medical Laboratories, a leader in allergy testing, is pleased to announce the expansion of our testing services to include environmental testing for the home.

"Increases in asthma over the last 30 years have been in perennial, or recurrent asthma. The strongest risk factor that has been identified is sensitization to indoor allergens," said Thomas A. E. Platts-Mills, M.D., University of Virginia in Charlottesville.

## NOW OFFERING:

- Indoor air sample analysis to measure the level of biological air contaminants
- Do-It-Yourself kits for dust mite and toxic mold
- Complete dust allergen analyses
- Mold Lift Tape to collect and identify visible patches of mold

CML is an authorized reseller for the AeroTrap™ Fungal Sampler. Call for additional information and pricing.
